Inter-University Higher Academic Council (IUHAC)

Order № 34

On 24th November, 2023

On the basis of the certificate of accreditation received from the Inter-University Council giving IUHAC, Paris as an independent institution a full right to confer International Academic Degrees of a Bachelor, Master, Doctor, Grand-Doctor and International scientific titles (professor, full professor) and evaluated diplomas of their award, that has full legitimacy and recognition by Department of USA and States, Under California University FCE Degree Evaluation certificate – and subjecting to International legal status, established by the Vienna Convention from April, 18, 1961 (1963), to add in the text of diplomas of awarding by IUHAC and IUFS (Bachelor, Master, Doctor and Grand-Doctor) and academic titles (professor, full professor), and also certificates, given by IUHAC under IUFS the following clarification in Russian and English language: «is legally valid in all countries, recognizing the Vienna Convention (1961) (1963)» .

President IUHAC, Paris
President of IUFS, Moscow
Grand-Doctor of Philosophy,
professor, academician

Intergovernmental Higher Academic Council (IHAC) The Fourth World Scientific Congress

Press-release

On November, 23-24, 2012, in St. Petersburg the Fourth World Scientific Congress (WSC), which is called «Science – for a Human and Humanity. What modern science gives and can give to a Human and Humanity» will be held.

Three WSC have been already held, and all of them were held in St. Petersburg, having caused a wide and deserved interest among the International scientific community. The Third World Scientific Congress (2011) was devoted to a system crisis in the modern world and the role of science in overcoming it. The Fourth World Scientific Congress is devoted to what really gives and can give modern science, materially and spiritually, to a human and the mankind, helping to successfully solve the most vital problems. The Fourth Congress continues and develops, refines and humanizes the problems of the Third Congress, brings it to the best interests and needs of an individual person and of all the humanity. The system crisis today continues and even intensifies in the world. Therefore, the role of science in its real overcoming grows. Science is inherently designed to contribute to meeting interests and needs of a man and the mankind, materially and spiritually, all and everyone. It promotes strengthening security and peace in the world.

The problems of the Fourth WSC are wide and varied. It involves various sciences: philosophy, cosmology, economics, biology, psychology, medicine, education, sociology, law, physics, cybernetics, ecology, computer science, history, cultural studies, art history, etc.

The theme of the Congress is the idea, fundamental to any science, of the interaction between the material and spiritual principles, subject to the domination of the spiritual beginning; the interaction between various sciences and scientists from different countries, and the interaction between science and society.

In work of the Fourth WSC, which is very representative, are taking part authoritative in the modern world scientists from the Russian Federation, the Near Abroad (Armenia, Byelorussia, Georgia, Kazakhstan, Latvia, Lithuania, Ukraine, Uzbekistan, Estonia) and the Far Abroad (Australia, Austria, England, Argentina, Belgium, Brazil, Canada, Gambia, Ghana, Egypt, Germany, India, Ireland, Italy, Cameroon, China, Korea, Lebanon, Mexico, Nigeria, New Zealand, USA, Finland, France, Switzerland, Sweden, Sri-Lanka, Equatorial Guinea).

According to the materials of the Congress a publication of a special collection in printed and electronic form is expected. The next, fifth WSC, is presupposed to be held in St. Petersburg in 2013. The Fourth WSC will be held to the address of: St. Petersburg, St. Isaac's Square, 13, AIP named after N.I. Vavilov. The beginning is at 10 a.m.

The decision of the VII World Scientific Congress (WSC)

November 26-27 2015 the VII World Scientific Congress on the topic: “Uniqueness in science and art” took place.

Respectable in the modern world academicians and artists from the Russian Federation and former Soviet republics participated in the work of the Congress.

1. The 7th World Scientific Congress supports and approves practical and organizational actions, which IHAC and IUFS conducts, and also the research direction of the reports and presentations on the Congress.
2. The congress contributed to the world science and practically-oriented activities concerning understanding, explanation, application and evaluation of the uniqueness in science and art in the organic interaction of the materialism and spiritualism, with the spiritualism dominating.
3. During the 7th World Scientific Congress “the Round Table” dedicated to the topical issues of science and culture development took place.
4. The participants of the Congress are planning to realize a range of fundamental and theoretically and practically important research Projects:
 - 1.1. The Opening of the United Research Academic Council (IHAC, IUFO, Academy of France, Russian Academy of Science Medicine and Technology, Rehabilitation Centre (Marcel, France).
 - 1.2. International Registration of the Program «120+» in France (E.S.Postnov).
 - 1.3. The opening of the Centre of Complex Rehabilitation “Maykov System” in France.
 - 1.4. The opening Leechcraft Center in France (A.I.Krashenyk).
 - 1.5. The opening of the Centre of Ophthalmology in France (Y.A.Utekhin).
 - 1.6. The opening of the Ecological Centre in France
 - 1.7. International Registration of the medicine “Vitamedin M” in France (Y.V.Galtzev).
 - 1.8. The opening of the Centre for International Tourism and Intercultural Communication in France.

1.7. International Registration of the medicine “Vitamedin M” in France (Y.V.Galtzev).

1.8. The opening of the Centre for International Tourism and Intercultural Communication in France.

1.9. The opening of the International Centre for Fundamental Economics in France (V.E.Chabanov).

5. The Congress calls upon all the researchers from the whole World to contribute to the world safety on the Planet during out trouble times, when dangerous for the humanity conflicts and disasters happen very often.

6. The organizers of the Congress are going to publish the printed version materials from the Congress. First of all, in the journals: “The spirit of time”, “World scientists”, “Science today and tomorrow”, but also like a separate publication.

7. Organizational Committee of the 7th World Scientific Congress is very grateful to all the participants and organizers of the Congress.

8. The 8th World Scientific Congress is going to be conducted in 2016 in St. Petersburg (Russia) supposedly in November. The future probable topic is “The new in science: the explained and the unexplained”.

The decision is taken by the open vote of the participants of the 7th World Scientific Congress.
